SOCIAL MEDIA

The use of social media is ubiquitous in today’s world and used properly, is an effective communications tool.

STARR speakers, please be aware that we have established a Twitter account for this year’s conference, @TheRealSSTAR, that some audience members may utilize to live-tweet content of various conference presentations. Live tweeting is a way for those not in attendance to gain presentation insight in real time and we encourage online interactions and engagement.

For those attendees tweeting, please remember to keep your content professional and appropriate to furthering the mission of SSTAR.

PRESIDENT’S WELCOME LETTER

It’s that time again! The time when we come together to learn, teach, inspire and conspire! I’m speaking of course about our Annual Meeting. This year’s theme is: *Life in Transition, Navigating Changes and Fostering Sexual Well-Being*. Natalie Rosen with Tuuli Kukkonen have put together an amazing program that is reflective of what we have all come to value about SSTAR – a balance of research and clinical insights, a forum for seasoned professionals and rising students to share their knowledge, an openness to a diversity of viewpoints and a willingness to learn. We are further united by our shared commitment to improving the sexual health and well-being of the communities we serve. Kudos to us.

Highlights of this year’s meeting include talks by Emily Nagoski (Come as You Are), Emily Impett on sexual desire in long term relationships, Elizabeth Grill on infertility, Terri Conley on monogamy (or not) as well as Laura Kipnis who will be discussing sexual paranoia on campus (and this in the #metoo era!). SSTAR’s own Stephen Betchen will present a tantalizingly titled clinical case - answering the age old question of how many strokes it takes to get a good swing (Don’t know what I’m talking about? Go look at the program! It’s amazing, even if my attempt at humor is not). Other features of the program this year involve the addition of data blitzes – short, to the point and up to the minute information on sex research. The incomparable Marta Meana will be presented with the Masters and Johnson Award for extraordinary contributions to the field of sex therapy and research. This is the highest honor we bestow at SSTAR and Marta is truly deserving. We are delighted to be presenting several other awards in recognition of significant achievements. So there is much cause for celebration.

Speaking of celebrating, Rita DeMaria and Lucy Raizman as Local Program Chairs have put together a wonderful social evening for us - a tour of the Barnes Foundation followed by an Italian dinner. The Barnes foundation is renowned as an “aphrodisiac for even the most lackluster art gallery visitor” (Ok, maybe those are my words, but the Barnes Foundation has one of the world’s largest collections of impressionist, post-impressionist and modern European paintings and it really is awe inspiring). As for the dinner to follow, well, Philadelphia is known for its Italian food, so get your Philly Cheese steak another night and join us for the dinner. If you don’t know anyone, don’t worry. By the end of the evening you will.

It is my pleasure to welcome you all to Philadelphia and to the 43rd Annual Meeting of the Society for Sex Therapy and Research.

Warm regards,
Kathryn Hall, PhD
President, Society for Sex Therapy and Research
ACKNOWLEDGEMENTS, CONTINUING EDUCATION ACCREDITATIONS & APPROVALS

SANDRA R. LEIBLUM STUDENT FUND

Started as a tribute to Sandra R. Leiblum, PhD, a pioneering authority in sex therapy and SSTAR past president, the Leiblum Student Fund supports the next generation of researchers and leaders in sex therapy. Each year, the fund grants a small honorarium, travel and registration expenses to the winner of the Sandra R. Leiblum Student Research Award to present his or her winning research abstract at the SSTAR Annual Meeting.

The Leiblum Student Fund is supported by donations, which can be made by filling out the form found at the registration desk and returning it to the SSTAR Office. In addition, donations can be made via the SSTAR website (www.sstarnet.org) or members may add donations at the time of their dues renewal. A contribution to the fund is an excellent way to honor Sandra R. Leiblum’s legacy and the cause that was very dear to her – the education of students and support of their research.

All contributions to the Leiblum Student Fund are tax deductible in the United States and allowed by law and, in some circumstances, Canada. Donors will receive an acknowledgement letter from the SSTAR office and are recognized in the program of the SSTAR Annual Meeting.
