SOCIAL MEDIA

The use of social media is ubiquitous in today's world and used properly, is an effective communications tool.

STARR speakers, please be aware that we have established a Twitter account for this year's conference, @TheRealSSTAR, that some audience members may utilize to live-tweet content of various conference presentations. Live tweeting is a way for those not in attendance to gain presentation insight in real time and we encourage online interactions and engagement.

For those attendees tweeting, please remember to keep your content professional and appropriate to furthering the mission of SSTAR.

Welcome to the new and improved SSTAR Annual Meeting. “Wait! This is the 44th Annual Meeting – how can it be new?” you ask. Here’s how:

We have several speakers who are new to the SSTAR stage. Among these newcomers are Trevor Hart (speaking about NEW therapeutic approaches for gay and bisexual men), Markie Twist (Digisexuality and Digiattachment are new to me!) and our NEW SSTAR member Laurie Mintz will help us all become more cliterate. What’s also new is Toronto. This vibrant, cosmopolitan, Canadian city is a new destination for SSTAR and our social program, arranged by James Cantor and Morag Yule, will help us sample some of what Toronto has to offer. Happily, our Scientific Chair, Tuuli Kukkonen, along with Morag Yule, have organized a program that matches the city for diversity and vibrancy. Research panels will again bring us NEW results and insights. Meredith Chivers will be presenting on a new self-report measure for responsive desire in women, Debbie Herbenick will be sharing some new perspectives on longitudinal data and while we have had panels, workshops and plenaries on gender transitioning, we gain a new perspective by examining the more controversial issue of detransitioning. Paper sessions focusing on child maltreatment, men’s sexual pain and infertility, among other topics, along with our data blitz sessions, will give us new data to inform our treatment decisions and research questions. New workshops, new ideas in our Poster session and new ethical issues to tackle are all part of the mix. We also have a NEW award to bestow: the inaugural SSTAR Mentorship Award is being given to Irv Binik of McGill University. Congratulations, Irv!

Most importantly, we have many NEW MEMBERS! Please join me in welcoming them to SSTAR. We will formally welcome new SSTAR members at the cocktail reception preceding the poster session, but new members - we will informally welcome you throughout the conference. Introduce yourself during breaks! Pull up a chair at lunch! Brave the walk to the microphone during sessions! Your involvement is necessary for the growth and development of SSTAR. New members, new ideas, new insights and new experiences improve SSTAR so each year we can boldly proclaim that we are NEW and IMPROVED. Veteran and novice SSTAR members have been participating in our NEW MENTORSHIP program. Come meet your mentor at the early part of the cocktail hour. The mentorship program welcomes NEW applications from prospective mentors and mentees.

As a final note, SSTAR will welcome Sophie Bergeron as the new SSTAR President. SSTAR could not be in better hands. I am immensely grateful to Sophie who was an involved and active President-Elect. My two years as SSTAR President were truly rewarding because of Sophie, and all who served on the Executive Committee and the various subcommittees.

Welcome to Toronto and the 44th new and improved Annual Meeting.

Warm regards,
Kathryn Hall, PhD
President, Society for Sex Therapy and Research
ACKNOWLEDGEMENTS, CONTINUING EDUCATION ACCREDITATIONS & APPROvals

The SSTAR 2019 Annual Meeting is fully accredited and approved toward continuing education credits for psychologists, sexologists, physicians, social workers, and marriage and family therapists. The Toronto Sexuality Centre is delighted to welcome the Society for Sex Therapy & Research to Toronto for 2019!

The Toronto Sexuality Centre is Toronto’s largest clinic for sex and couples’ therapy. The TSC provides state-of-the-art, empirically-supported, psychological services for the broad range of sexual behaviour issues, gender expressions, and couple and relationship conflicts. We accept referrals for couples and relationship conflicts, erectile disorder, premature ejaculation, sex addiction/hypersexuality, gender dysphoria and transition support, poly- and open relationship issues.

Therapies are available in one-on-one and couples’ formats. Poly-relationships can benefit from combinations of formats, tailored to specific relationship configurations.

Our clients include those working through infidelity; sexual pain problems; exploring BDSM, kink, and atypical sexualities; confronting potentially harmful sexual urges; low or lack of sexual desire; and understanding transgender spouses and family members.

The TSC is located centrally in downtown Toronto, easily accessible by car and public transit. Weekend and evening appointments are available.

Clients do not require a referral from a family doctor or other physician—Clients may refer themselves.
SANDRA R. LEIBLUM STUDENT FUND

Started as a tribute to Sandra R. Leiblum, PhD, a pioneering authority in sex therapy and SSTAR past president, the Leiblum Student Fund supports the next generation of researchers and leaders in sex therapy. Each year, the fund grants a small honorarium, travel and registration expenses to the winner of the Sandra R. Leiblum Student Research Award to present his or her winning research abstract at the SSTAR Annual Meeting.

The Leiblum Student Fund is supported by donations, which can be made by filling out the form found at the registration desk and returning it to the SSTAR Office. In addition, donations can be made via the SSTAR website (www.sstarnet.org) or members may add donations at the time of their dues renewal. A contribution to the fund is an excellent way to honor Sandra R. Leiblum’s legacy and the cause that was very dear to her – the education of students and support of their research.

All contributions to the Leiblum Student Fund are tax deductible in the United States and allowed by law and, in some circumstances, Canada. Donors will receive an acknowledgement letter from the SSTAR office and are recognized in the program of the SSTAR Annual Meeting.
